Introduction

The U.S. Department of Housing and Urban Development (HUD) provides Federal funding to Montgomery County (hereinafter “the County”), the City of Dayton (hereinafter “Dayton”), and the City of Kettering (hereinafter “Kettering”) for their housing and community development programs through the Community Development Block Grant (CDBG) and the HOME Investment Partnership Program. The County, Dayton and Kettering then grant most of these funds to providers of services or housing benefiting low- and moderate-income persons. As a prerequisite to receiving these federal funds, entitlement communities, including the County, Dayton, and Kettering, must affirmatively further fair housing, which, in the context of Fair Housing Planning, means that these three local jurisdictions must prepare an analysis of impediments to fair housing, a plan to address these impediments, and maintain records of their fair housing activities. Collectively, this is known as a Fair Housing Action Plan, which becomes a part of each jurisdiction’s Consolidated Plan.

Fair Housing

Fair housing means residents having the choice to live where they want and where they can afford without the fear or threat of discrimination. Discrimination, in this context, is any housing practice or action that is unlawful under Title VIII of the Civil Rights Act of 1968, as amended. Title VIII, commonly referred to as the Fair Housing Act, specifically provides that “...no person shall be subjected to discrimination because of race, color, religion, sex, handicap, familial status, or national origin in the sale, rental, or advertising of dwellings, in the provision of brokerage services, or in the availability of other residential real estate-related transactions.”

Commitment to Fair Housing

The County, Dayton and Kettering are each committed to affirmatively furthering fair housing and to adopting a fair housing action plan, which supports their Consolidated Plans. The **2010 Regional Fair Housing Action Plan for Montgomery County, the City of Dayton, and the City of Kettering, Ohio** enhances and furthers equal opportunity in housing to all of the residents within the three jurisdictions, enabling residents to more readily seek, obtain, use and enjoy the housing that exists within the Miami Valley region. With this in mind, the plan adopts the programmatic objectives laid out in the opening of HUD’s 1996 publication “Fair Housing Planning Guide,” which gives guidance on this process:

The Department of Housing and Urban Development is committed to eliminating racial and ethnic segregation, illegal physical and other barriers to persons with disabilities and other discriminatory practices in housing. Additionally, the Department will use all of its programmatic and enforcement tools to achieve this goal. The fundamental goal of HUD’s fair housing policy is to make housing choice a reality through Fair Housing Planning (FHP).

Analysis of Impediments to Fair Housing

The Analysis of Impediments to Fair Housing is the first step in developing a fair housing plan. The 2009 Analysis of Impediments for Montgomery County, the City of Dayton, and the City of Kettering, Ohioⁱ disclosed a number of impediments that this Fair Housing Action Plan addresses with Action Tasks and Goals.

2010 Fair Housing Action Work Plan

Impediment 1: Racial segregation or racial clustering still exists.

1A. Provision of Fair Housing Education and Enforcement Services

Action to be Taken:

The County and Kettering will contract for fair housing education and enforcement services with the Miami Valley Fair Housing Center, Inc., (hereinafter “MVFHC”). Dayton will contract for fair housing testing with MVFHC. Dayton’s Human Relations Council (hereinafter “HRC”) staff will handle enforcement services (other than testing) in Dayton; and will complete an update, currently in process, on its brochure for use at outreach and education events.

Action Time Frame/Goals:

The County and Kettering will each renew its agreement with MVFHC for the education and enforcement services for the year starting Jan 1, 2010. Dayton’s contract for testing services with MVFHC will be executed by July 1, 2010. Annual renewals will occur during the term of the Consolidated Plan. The goals of this action are to reduce racial segregation and racial steering and to promote racial integration in housing.

Responsible Entity/Resources:

Staff from the Community Development Departments of the County and Kettering and from HRC, or their designees, will implement these activities. Resources for these activities include, funding such as CDBG, private funding and other local and federal sources of funds designated for fair housing and fair lending activities.

In subsequent years, similar documentation will be attached to the Fair Housing Action Plan annual review to substantiate the continuation of education and enforcement services between MVFHC, the County and Kettering.
- Attachment 3 – *Scope of Services from the Agreement* confirms a contract for fair housing testing services between Dayton and MVFHC. In future years, Dayton will also submit

documentation to substantiate continued testing as a part of the annual review. HRC will annually report on its education activities, some of which will be in collaboration with MVFHC.

- Increase the number of residents who know how to file a housing discrimination complaint. This goal will be measured by a 2010 baseline that tracks the number of complaints from residents whose complaints allege national origin discrimination within the three jurisdictions.

HUD will also evaluate each jurisdiction's participation in regional efforts to implement this plan's fair housing and fair lending goals.

In order to effectively implement this plan, the jurisdictions also need to develop:

- A matrix or similar tool for tracking progress on each component of the plan over the five year implementation period;
