

NUVASIVE INC.

CASE STUDY

MONTGOMERY COUNTY, OHIO, USA—THE OPTIMAL LOCATION FOR MEDICAL DEVICE MANUFACTURING FACILITIES.

RECRUIT

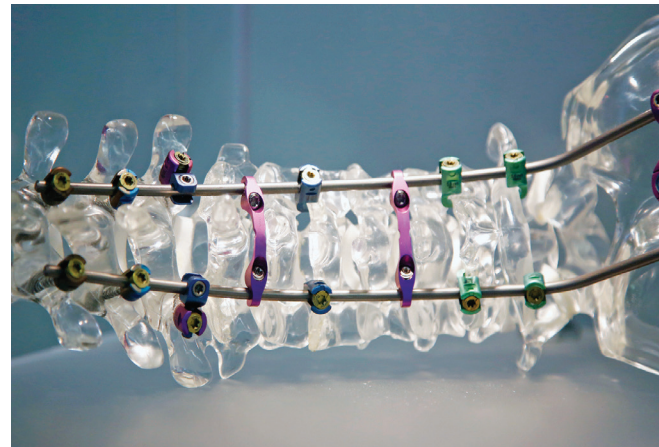

NuVasive Inc. (NASDAQ: NUVA), a leading spine technology company (#3 in a \$9 billion industry) needed 300 full-time, qualified, high-tech employees including engineers, skilled machinists, process development and validation specialists at its new medical device facility near Dayton, Ohio in Montgomery County.

TRAIN

Local schools, colleges, municipalities, and economic development organizations leapt into action to help recruit, train, and retain a qualified workforce for NuVasive. Team members included Montgomery County Business Services, the Dayton Development Coalition, Sinclair College and Clark State community college, JobsOhio centers in Montgomery and Greene counties, Miami Valley Career Technology Center and the career center offices of the University of Dayton and Wright State University.

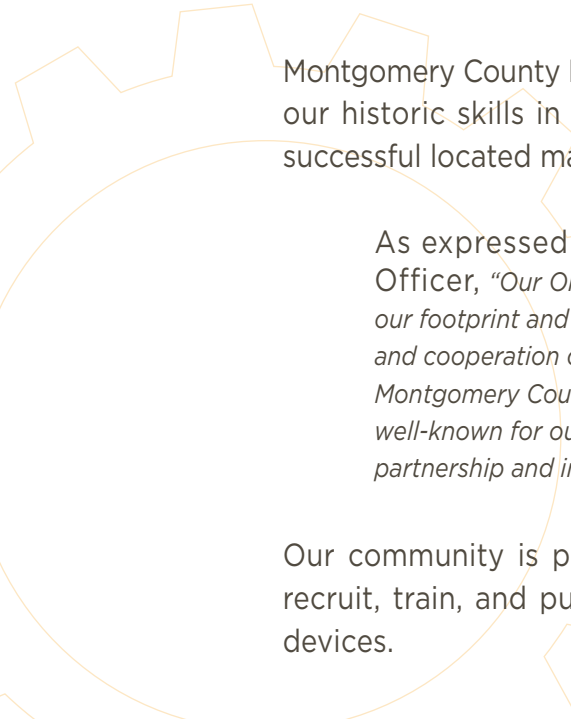

PRODUCE

Montgomery County's coordinated economic development engine supported NuVasive with customized tools including research, workforce analytics, recruitment and training support, along with competitive incentives to help create a specialized, skilled workforce for companies like Yaskawa Motoman, Spectrum Brands, and other fine companies.

Greater Dayton and Montgomery County, Ohio, are home to a rich legacy of manufacturing excellence.

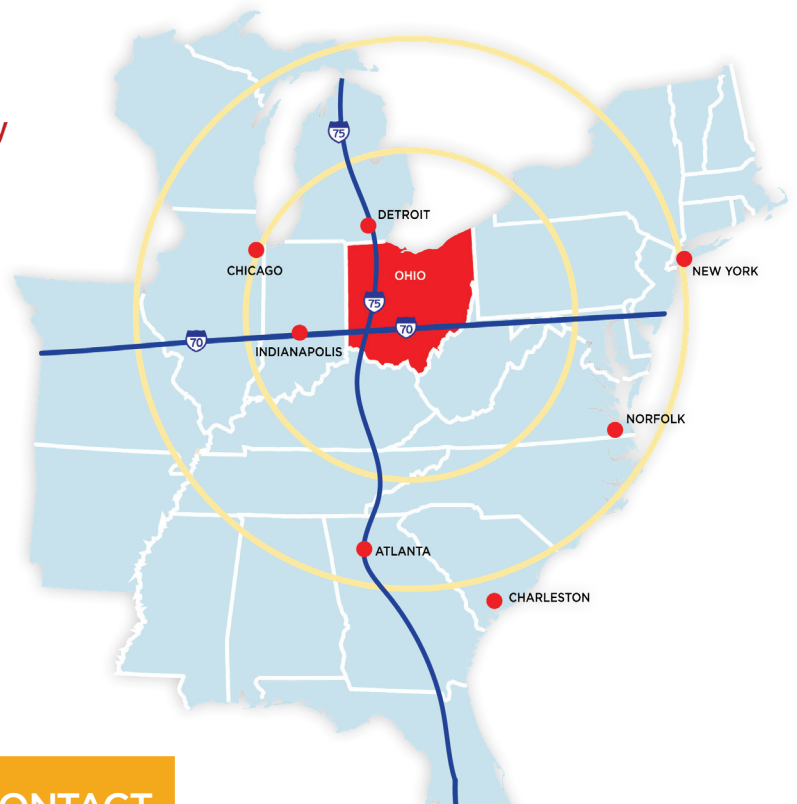

Montgomery County Business Services is part of a collaborative team that continues to nurture our historic skills in manufacturing to the benefit of companies, like NuVasive, that have successful located manufacturing facilities here.

As expressed by Gregory T. Lucier, Nuvasive's Chairman and Chief Executive Officer, *"Our Ohio workforce is a critical part of our ongoing success and we are excited to expand our footprint and provide additional opportunities within the state. We greatly appreciate the support and cooperation of the Dayton Development Coalition and JobsOhio, as well as officials from both Montgomery County and the City of West Carrollton during the site selection process. NuVasive is well-known for our cutting-edge products and procedures and we look forward to building on this partnership and investing in the local community for years to come."*

Our community is prepared to assist other forward-thinking companies like NuVasive to recruit, train, and put skilled, well-trained employees to work making in-demand medical devices.

Take a closer look at Montgomery County, Ohio, USA as a potential headquarters or expansion site.
